There are two dashboard :-

TEACHER'S DASHBOARD

1. Teacher can see how many students are enrolled, how many courses he has listed and how many courses are available.

2. Teachers can add new courses and upload their documents.

The screenshot shows the 'Add a Course' form. The sidebar is identical to the previous screenshot, but 'Add New Courses' is now highlighted in the 'MANAGEMENT' section. The main content area displays a form titled 'Add a Course' with the following fields: 'Course Name' (text input), 'Subject Code' (text input), 'Upload Course Documents' (a 'Choose File' button and a 'No file chosen' text), and 'Enrollment Price' (text input). A blue 'Confirm' button is located at the bottom right of the form.

3. Teachers can edit the details of the courses.

The screenshot displays the 'Edit Course Details' interface. On the left is a sidebar with a 'MENU' section containing 'Dashboard' and a 'MANAGEMENT' section with links for 'Add New Courses', 'Edit Course Details' (highlighted), 'Enrolled Courses', and 'Course Handouts'. The main content area is titled 'Edit Course Details' and features a table with the following data:

ID	Course Name	Subject Code	Enrollment Price	Course Handout	Take Action
1	DSA	CS1001	₹200	See Course Handout	Edit Details

Below the table, there is a form to update the course details. The form includes three input fields: 'Course Name' (with placeholder 'Enter Course Name'), 'Subject Code' (with placeholder 'Enter Subject Code'), and 'Price' (with placeholder 'Enter Price'). A 'Confirm Details' button is located at the bottom right of the form.

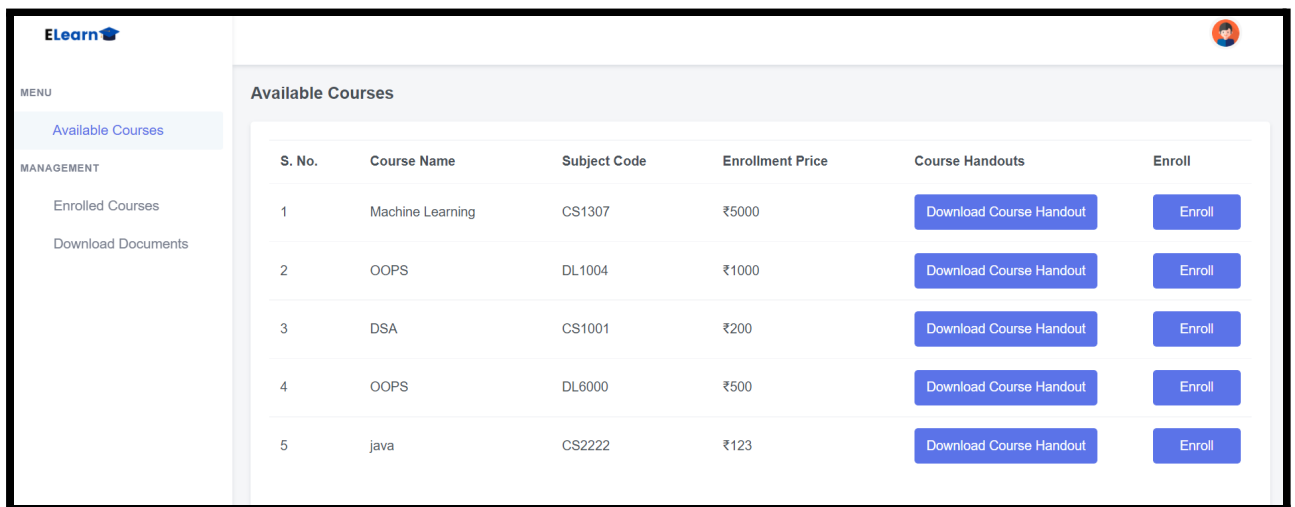

4. Teacher can see the name of the student who is enrolled in that particular course.

The screenshot displays the 'Enrolled Courses' interface. On the left is a sidebar with a 'MENU' section containing 'Dashboard' and a 'MANAGEMENT' section with links for 'Add New Courses', 'Edit Course Details', 'Enrolled Courses' (highlighted), and 'Course Handouts'. The main content area is titled 'Enrolled Courses' and features a table with the following data:

S. No.	Subject Code	Course Name	Enrolled By
1	CS2222	java	USER1

STUDENT DASHBOARD

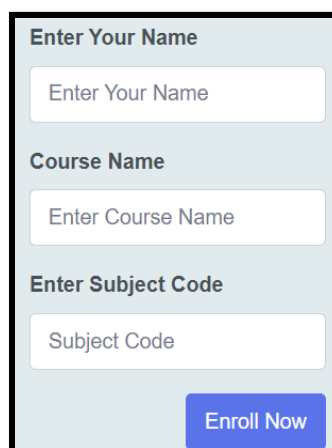

1. Students can see which courses are available.

The screenshot shows a web application interface for a student dashboard. On the left is a sidebar with the 'Elearn' logo and a menu containing 'Available Courses' (highlighted), 'Enrolled Courses', and 'Download Documents'. The main content area is titled 'Available Courses' and contains a table with 5 rows of course information. Each row has buttons for 'Download Course Handout' and 'Enroll'.

S. No.	Course Name	Subject Code	Enrollment Price	Course Handouts	Enroll
1	Machine Learning	CS1307	₹5000	<button>Download Course Handout</button>	<button>Enroll</button>
2	OOPS	DL1004	₹1000	<button>Download Course Handout</button>	<button>Enroll</button>
3	DSA	CS1001	₹200	<button>Download Course Handout</button>	<button>Enroll</button>
4	OOPS	DL6000	₹500	<button>Download Course Handout</button>	<button>Enroll</button>
5	java	CS2222	₹123	<button>Download Course Handout</button>	<button>Enroll</button>

2. Students can enroll in any of the courses by clicking the enroll button in the table.

The form is a vertical stack of input fields and a button. It starts with the label 'Enter Your Name' above a text input field. This is followed by the label 'Course Name' above another text input field. Then, the label 'Enter Subject Code' is above a third text input field. At the bottom right of the form is a blue button labeled 'Enroll Now'.

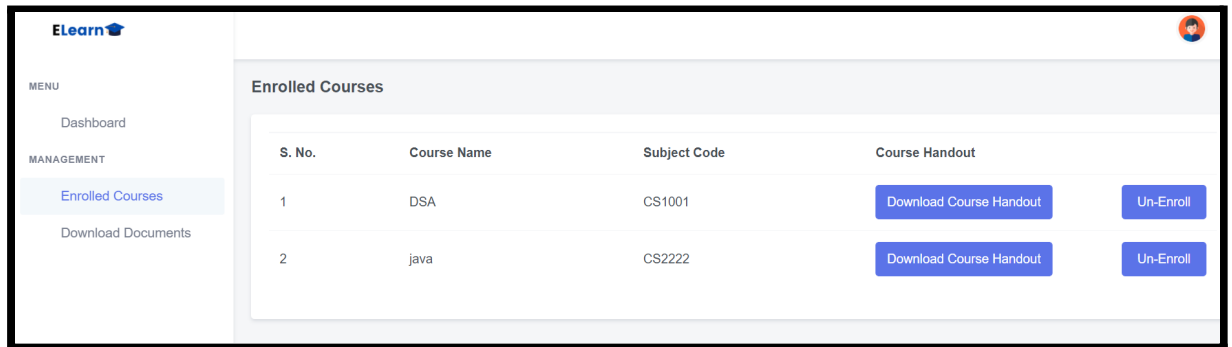

Enter Your Name

Course Name

Enter Subject Code

Enroll Now

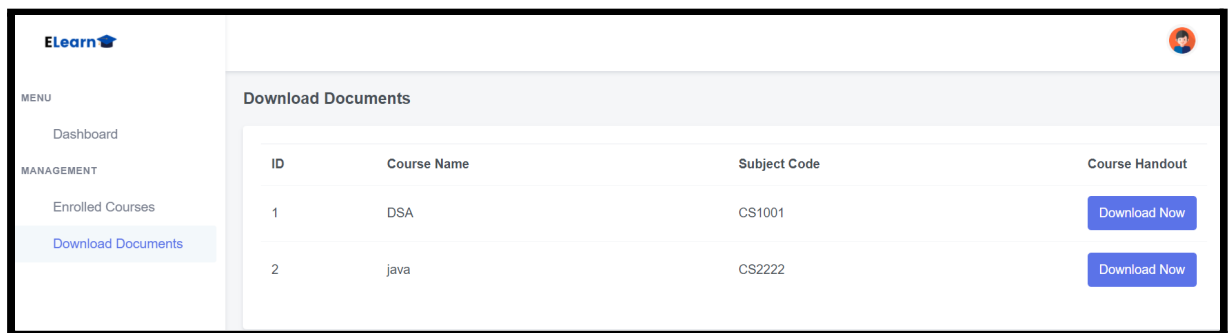

3. Students can enroll in multiple courses.

4. Students can also delete the course by clicking on delete button.

The form is titled 'Enter Subject Code' and contains a text input field labeled 'Subject Code'. Below the input field is a blue button labeled 'Confirm Delete'.

5. He can access and download the documents which the teachers have uploaded.

PHP-MYSQL CONFIG

To host this project on localhost, we will have to create a new database in the PHPMyAdmin dashboard with the database name as **"learnp"**.

Then by importing the SQL file, the database will be connected.

If we wish to change the database name and other details we need to update the config.php file with the new details. This file is present in two locations.

1. [E-learn/admin/config.php](#)

2. [E-learn/config.php](#)

The SQL file is present at the location

[E-learn/SQL File/learnp.sql](#)

FUTURE WORK

1. Implement **payment gateway** so that students can purchase courses.
 2. Make E-learn both in light and dark mode.
